District Attorney McNamara Of Sawyer Co.,  
Has Authority To Act Now.

## IS BACKED BY STATE GOVERNMENT

Former Janesville Resident Promises To Make Things  
Lively For Holder Of Cameron Dam  
Very Shortly.

[SPECIAL TO THE GAZETTE.]  
Chippewa Falls, Wis., Nov. 14.—Another attempt is to be made to capture John Dietz, the defender of the Thorneapple dam who has defied the state authorities for two years. Frank L. McNamara, son of H. L. McNamara, of Janesville, of Sawyer county, who since he took the office of district attorney two years ago, has been using every effort to secure the Cameron dam man's capture, was re-elected on the Dietz issue. And it now becomes known that Atty. Gen. Surdevant has informed Gov. Davidson that he has authority to call out the militia to capture Dietz.

From these two facts it would appear that there will be an aggressive cooperation between the state and Sawyer county officials to bring Dietz from his stronghold on the Thorneapple river to the Dietz case at length. Atty. Gen. Surdevant says: "The sheriff states that Dietz is wanted upon a charge of attempting to murder, that an accomplice to Dietz, Valentine Weisenbach, has recently been tried, convicted and sentenced to twelve years in the penitentiary, that at his trial it was clearly shown that Dietz was equally guilty. He also states that he has made

## SENTENCED TO DIE DESPITE STATUTES

Parisian Murderer to Be Executed Un-  
less Reprieved—His Crime a  
Horrible Deed.

[SPECIAL TO THE GAZETTE.]  
Paris, Nov. 14.—Tardy Justice has been meted out at the Paris assizes to one of the most callous ruffians who ever stood in a stock. This was a man named Blenne-Hubert, who has been sentenced to death for the murder of a Mme. Velesek last February. The accused was employed in a restaurant near the Gare St. Lazare, and fell in love with Mme. Velesek, a widow, who was cashier of the establishment. She repulsed his advances, whereupon he began a systematic persecution of her, which he continued after being dismissed from the restaurant. The woman at last complained to the police, and Hubert was sentenced to a short term of imprisonment. As a result of the annoyance to which she was subjected she lost her position, and dreading the vengeance of Hubert, she quitted the neighborhood, changed her name, and opened a newspaper shop in another quarter. Hubert, however, tracked her down and continued his insults. His annoyances earned him another six months' imprisonment, which he completed in February. On his release he announced his intention of killing the woman. At six o'clock one morning, just as Mme. Velesek had opened her shop, he rushed in upon her with a large knife. Attack ing the defenseless woman with sav-  
age ferocity, he plunged the knife 25 times into her body. He set up a plea of insanity, but the doctors de-  
clared that he was perfectly sane. The crime aroused such a degree of public indignation that a movement is afoot to have the abolition of capital punishment, already decided upon by the government, deferred until after the man has been executed. The chances, however, are that the man will be reprieved because of the disinclination of the authorities to carry out death sentences.

# STATE EMPLOYEES MAKING PLANS FOR THEIR NEW JOBS

Fear That Changes Will Be Made Despite  
The Civil Service Regula-  
tions.

[SPECIAL TO THE GAZETTE.]  
Madison, Wis., Nov. 14.—A num-  
ber of employees in the capitol are  
looking for new places, notwithstanding  
the fact that they are "protected"  
under the civil service law. They  
opposed the new heads of depart-  
ments elected recently and do not  
care to remain under the men against  
whom they used their influence in  
the primary election. Others under  
the civil service rules are on the an-  
xious lest the new law afford them  
inadequate protection in their  
positions, particularly in view of the  
opinion of the attorney general to the  
effect that heads of departments may  
remove subordinates merely by de-  
claring reasons for removal which on  
their face are sufficient. If the em-  
ployee wants redress he cannot get it  
from the civil service commission but  
must go into court. It is believed by  
many employees that if a department  
head takes the notion to get rid of a  
subordinate, he can manage to do so  
without going to great inconvenience.  
The feeling prevails that there will  
be a goodly number of changes in the  
capitol when the new officers take  
their places early in January.

# LEGISLATION TO PREVENT SPREAD OF TUBERCULOSIS

Will Be Recommended By American Interna-  
tional Congress Held Under Sanction  
Of United States Government.

[SPECIAL TO THE GAZETTE.]  
New York, Nov. 14.—At the Hotel  
Astor today scores of eminent medical  
men, public health officials, legisla-  
tors, clergymen and representatives of  
foreign governments, with others in-  
terested in the general welfare of hu-  
manity, assembled for a joint session  
of the American International Con-  
gress of Tuberculosis and the Medico-  
Legal Society of New York. The  
chief object of the meeting, which is  
held under the sanction of the United  
States government, is the formation  
and urging of legislation to prevent  
tuberculosis. Incidentally there will be  
scientific discussion of the disease  
and the later discoveries relative to  
its treatment and prevention.

The personnel of the congress is  
such as to give weight to its delibera-  
tions and conclusions. The roll call  
showed an attendance of many medi-  
cal men and others of national or in-  
ternational reputation. At the initial  
session this morning, following the  
delivery of several addresses of wel-  
come, President Clark Bell of the  
Medico-Legal Society, introduced Dr.  
F. B. Daniel of Austin, Texas, pres-  
ident of the congress. Dr. Daniel de-  
livered his presidential address in the  
course of which he set forth the  
alarming and ever-increasing spread

of the dreaded disease and the neces-  
sity for the co-operation of all gov-  
ernments in legislative and other  
measures for its prevention.

The remainder of the day was taken  
up largely with the introduction of the  
foreign delegates and the arrangement  
of the program for the succeeding  
sessions of the congress, which will  
continue three days.

The congress plans to discuss every  
stage and symptom of tuberculosis.  
New and powerful light will be thrown  
on many phases of the disease, and it  
is intended to enlighten the masses  
concerning it. Preventive legislation  
will be urged, also governmental and  
municipal sanitariums throughout the  
world. Boards of health, state and  
provincial, medical organizations, and  
medico-legal organizations throughout  
America and Europe will be asked to  
co-operate in the movement.

A feature of the congress will be  
reports regarding a great number of  
special sanitariums and open-air  
camps in this country. The model  
camp, known as Camp Ely Woods in  
Sullivan county, New York, will be  
studied, also Saranac Lake, the city  
of Last Hope, the army sanitarium  
for consumptives at Fort Bayard, N.  
M., and other places where tubercu-  
losis is being scientifically treated.

head, Victim of Machine—  
Member Amputated.

Caught in the gearing of a corn  
shredder, as one might be caught in  
many another machine, and not in the  
rolls as is usually the case, Maurice  
Hyland, a farmer residing near Brod-  
head, sustained such bruises,  
fractures and lacerations of the left  
arm while at work Monday that am-  
putation above the elbow was neces-  
sary. Dr. Darby of Brodhead was  
called, but he gave the surgical work  
over to Drs. Connell and Delaney of  
Beloit. Hyland is twenty-five years  
old and married.

## LINK AND PIN.

Northwestern Road.

There were two serious accidents at  
Fortieth street, Chicago, last evening  
and one was witnessed by engineers  
from Janesville. This occurred in the  
roundhouse and the victim was a ma-  
chine. Repairs were being made  
about the forward portion of a locomotive  
when by reason of a defect she  
took steam and moved forward. The  
man was caught between the draw  
bar and a cylinder head and lay un-  
conscious for five hours. Engineer  
Dawson and Fireman Johnson, both  
known here, were on the engine. The  
other accident occurred on a viaduct.  
A Galena division brakeman slipped  
from top of box car and fell not only  
the height of the car but the addi-  
tional distance from the viaduct to the  
pavement below. He was seriously  
injured.

Engineer E. Betz is relieving En-  
gineer Spear.

Brakeman Damon returned to work  
after being relieved for one trip by  
Brakeman Duller.

Engineer J. Johnson and Fireman  
Bennett are relieving Engineer Daw-  
son and Fireman Johnson.

Brakeman Goodman was on runs  
567 and 598 with Conductor Frear  
today.

UNIQUE CLUB DANCE  
WAS A BIG SUCCESS

Throng of "Pleasure Seekers" Made  
Merry at Assembly Hall Until One  
O'clock This Morning.

Assembly hall was the scene last  
evening of a very enjoyable dancing  
party given by the Unique club, the  
first of a series planned for the win-  
ter. The ball-room was well filled with  
merry-makers when the festivities com-  
menced about nine o'clock and the last  
waltz was not played until one o'clock  
this morning. Kneff & Hatch's or-  
chestra furnished the music.

## Tricked by Dyspepsia

The Doctor Couldn't Tell Where  
the Trouble Lay.

"For the past seven years I have  
been a victim of dyspepsia and chronic  
constipation and have consulted the  
most noted specialists to be found on  
diseases of this character. None, how-  
ever, seemed to locate the difficulty  
or give relief. In addition to this  
medical treatment, I have resorted to  
the use of many remedies and have  
given them faithful trial, but all to no  
purpose.

Upon the recommendation of a close  
friend, I purchased a 50c package of  
Stuart's Dyspepsia Tablets and in less  
than five days noticed that I was re-  
ceiving more benefit than from any  
cure I had used before. I continued to  
use the tablets after each meal for  
one month and by that time my stom-  
ach was in a healthy condition,  
capable of digesting anything which  
my increasing appetite demanded.

I have not experienced any return  
of my former trouble, though three  
months have elapsed since taking your  
remedy.

We wish that you could see with  
your own eyes the countless "other  
bona-fide signed letters from grateful  
men and women all over the land who  
had suffered years of agony with dys-  
pepsia, tried every known remedy and  
consulted eminent specialists without  
result, until they gave Stuart's Dys-  
pepsia Tablets a trial. Like the doctor  
above, they couldn't locate the seat of  
the trouble."

Dyspepsia is a disease which has  
long baffled physicians. So difficult of  
location is the disease that cure seems  
next to impossible. There is only one  
way to treat dyspepsia—to supply the  
elements which nature has ordained to  
perform this function and to cause  
them to enter the digestive organs,  
supplying the fluids which Jack  
Stuart's Dyspepsia Tablets alone fill  
these requirements, as is shown by the  
fact that 40,000 physicians in the  
United States and Canada unite in re-  
commending them for their patients for  
stomach disorders.

We do not claim or expect Stuart's  
Dyspepsia Tablets to cure anything but  
disordered conditions of the stomach  
and other digestive organs, but this  
they never fail to do. They work up-  
on the inner lining of the stomach and  
intestines, stimulate the gastric glands  
and aid in the secretion of juices  
necessary to digestion.

Stuart's Dyspepsia Tablets are for  
sale by all druggists at 50 cents a box.  
One box will frequently effect a per-  
fect cure. If in doubt and wish more  
adequate proof send us your name and  
address and we will gladly mail you  
a simple package free. F. A. Stuart

HAS MADE REPORT  
OF THE CONDITION

State Board of Health Says the Doc-  
tors Are Neglectful in Obey-  
ing the Laws.

Dr. C. A. Harper of Madison, presi-  
dent of the state board of health, says  
many physicians about the state are  
mildly censured for not having re-  
strictly complied with the laws by re-  
porting cases of tuberculosis. Accord-  
ing to his report 192 cases were re-  
ported at the office of the state board  
of health during the months of July,  
August and September.

"This is considerably less than the  
number that was reported for the  
second quarter," says the report, "and  
is simply indicative of laxity on the  
part of the attending physicians to re-  
port the cases to the local health  
officer. One hundred and fifteen  
deaths were reported from the dis-  
ease, which is also considerably less  
than the number reported for the  
previous quarter.

"Of the total number of cases re-  
ported, 177 were from Milwaukee. If  
the returns are correct, only fourteen  
new cases were discovered during  
this period of time in other parts of  
the state. As stated in our last quar-  
terly bulletin, physicians outside of  
the city of Milwaukee would do well  
to emulate the practice of the Milwau-  
kee fraternity.

Many Diphtheria Cases.  
During the months of July, Aug-  
ust, and September, 203 cases of  
diphtheria were reported with 17  
deaths. This is considerably less than  
that recorded for the months of  
April, May, and June. That this dis-  
ease should be so prevalent during the  
summer and at a time when the  
schools are not in session, is luxu-  
scusable. Seventy-four cases of scar-  
let fever with two deaths were re-  
ported for the quarter just closed.

"Our records show that thirty-five  
fevers have been afflicted with typhoid  
fever in a more or less epidemic form.  
One hundred and eighty-nine cases  
with nineteen deaths were reported.  
The fatality rate of 10 per cent is  
considerably less than that for the  
second quarter.

Prevent Whooping Cough.  
The popular yet erroneous belief  
in the advisability of having measles  
while young should be discouraged  
wherever found. Whooping cough is  
simply a disease of early childhood  
and as great precaution should be  
taken against contracting this disease  
during the first two or three years of  
life as would be exercised in protect-  
ing the little ones from diphtheria or  
scarlet fever. The records show that  
nearly all deaths from whooping  
cough are under 2 years of age. Meas-  
les, undoubtedly, plays a greater  
role in the death rate of the state  
than the face of the records show.

"Smallpox appears to be on the de-  
cline, only 132 cases were reported  
with two deaths. The seasonal varia-  
tion of the disease no doubt plays an  
important part in this record.

"For the months of April, May and  
June there were reported to this of-  
fice from 107 cities of the second, third  
and fourth classes 230 deaths. For  
the preceding quarter reports were  
received from only thirty-five cities.  
During the fourth quarter of last year  
thirty-seven cities failed to make this  
report.

"Of the total deaths reported, 1,103  
were males, 559 females, and 23 with  
no sex given. This gives a male ex-  
cess of 249. Nine hundred and nine-  
ty-three were married. Two hundred  
and seventy deaths were reported  
from heart disease and dropsy; 119  
were from diseases of the nervous  
system; 149 were caused by pulmo-  
nary tuberculosis; 61 were due to other  
tubercular diseases; 199 resulted  
from pneumonia; 57 from diarrheal  
diseases; 99 from cancer and tumor;  
106 from diseases of the urinary sys-  
tem; 17 from diphtheria; 32 from  
typhoid fever; 17 from whooping  
cough; 5 from scarlet fever; 18 from  
measles; 135 from old age, and 631  
from other causes not classified.

Death Rate is 12.71.  
"With an aggregate population in  
these 170 cities of 924,940, the annual  
death rate is 12.71, as compared with  
the rate for the fourth quarter of last  
year of 12.22 and the rate for the  
first quarter of the year of 12.29, we  
find that a much more favorable con-  
dition seems to prevail. It is possi-  
ble that the seasonal variation would  
account for this change in the mor-  
tality rate.

"Nearly every city in Wisconsin ob-  
taining its water supply from one of  
the great lakes is suffering more or  
less from the presence of typhoid fever  
or other intestinal diseases. The  
fact simply goes to show the dangers  
of the present system on the part of  
those cities obtaining their water  
supplies. The disposition of sewage  
into one of the great lakes within a  
few thousand feet of the intake pipe  
as exposing the citizens to typhoid  
fever in as serious a manner as it  
would be to allow children from a well  
family to go into the quarantined  
rooms of families suffering from  
diphtheria or scarlet fever and al-  
lowing their children to mingle with  
them."

## HIGHEST CHEESE SCORES

University Over 90 Per Cent.

vember cheese scoring contest, the  
seventh in the series held under the  
auspices of the college of agriculture  
at the University of Wisconsin, re-  
sulted in the highest average score  
for the total number of entries. Re-  
sults show an average score of 96.23  
per cent, and the exhibit is pronoun-  
ced the finest not only in quality but  
in appearance as well. For American  
cheese first place was won by P. E.  
Cranston, Soldiers Grove, Wis., with  
the remarkably high score of 99  
points. P. H. Kasper, Wilmot,  
Wis., took second place, scoring 98.5  
points, and F. P. Schwingel, Avoca,  
Wis., third, with 98 points. C. P.

first place for brick cheese with 96.33  
points, and Casper Andereg, La

Wis., scored first for Swiss cheese  
with a record of 93.5 points. Fred  
Blaser, Hollandale, Wis., again won  
first honors for Limburger with the  
almost perfect score of 99 points, and  
was given special mention by the  
judges for the excellent quality of lim-  
burger cheese exhibited by him, not

are all members of the Order of Rail-  
road Telegraphers, which demanded a  
twenty per cent advance from the offi-

conference was held and the tick men

Injuries at Sash and Door Factory  
Yesterday Afternoon.

As Albert Schaller was attempting  
to shut off a sash in the Janesville

he could be released the groove-knife  
had severely lacerated his arm just  
below the elbow. Dr. McCarthy found  
it necessary to take eight stitches  
in the wound and the young man will  
be deprived of the use of the member  
for several months.

## NEW FAD IN TOWN.

Many Men Getting a Sensible Habit.  
In the last few days it has become  
the popular thing to step into People's  
Drug Co.'s drug store and get a pack-  
et of Wadsworth Bros. "Chicos"  
5c cigar that has caused many men  
to get what may be called the "Chic-  
os" habit.

It is far more sensible to smoke a good  
5c cigar like the "Chico" (and there  
is no other 5c cigar like it) than to  
pay double the price and get no bet-  
ter smoke. It is made with a clear,  
long Havana filler, and is especially  
pleasing to the man who has been  
smoking a 10c or two for a quarter  
cigar. It burns freely, and tastes good  
clear to the stub.

Try a "Chico" and see if you, too,  
do not get into the habit. Frequent  
People's Drug Co.'s drug store for  
your supply of cigars.

Wadsworth Bros. "Chicos" are also for  
sale at King's Pharmacy.

## THE APOLLO CLUB MARKS AN EPOCH

OPENS NEW VISTA TO MUSIC LOVERS.

## DELIGHTFUL ENTERTAINMENT

Myers Theatre Was Filled With an Enthusiastic Audience on Tuesday Evening.

It was the aim of The Apollo Club's managers to make the first public grand concert an epoch-making one. Last night's work showed that their purpose had been attained, and we only hope that from now onwards our music-lovers will more fully realize and appreciate the honest endeavors and ambition of the club. It was wise and fitting that the concert should be given in the opera house, where, a splendid audience gathered to discover the stage artistically arranged, as a solo with rich tapestries, fabrics and plants from the establishments of J. M. Bostwick & Sons, C. S. Putnam, and Janesville Floral company, and upon which Mr. Earl M. Gates had laid his deft hand, which guaranteed a faultless ensemble. The program, though hardly to be classed among the very exacting, was a thoroughly good and highly meritorious one, as all music-lovers can easily recognize.

Opening with a beautiful quartet from Verdi's "Rigoletto," the artists and their associates gave promise of the musical treats in store. It has seldom, or never, been our privilege to listen to a more evenly balanced combination. The Beethoven number, the Aria "Ah, Perfidio," fully revealed the power, compass and tender pathos of Miss Harrison's beautiful contralto. While of the four numbers, entrusted to Mr. William Beard's bass voice, Handel's "Where'er You Walk," appealed to most. Mr. Beard's interpretations left nothing to be desired, yet Handel's solemn and tender melodies seem to suit him best. Three excerpts by Mrs. Sharp-Herdien gave ample scope for the full compass and power of her fine soprano voice. "Autumn" being especially illustrative of this, while her interpretation of Frahn's "Jamie, Come Home" showed her artistic and sympathetic grasp of a very simple theme. And this element was the leading one throughout all the work done by these artists. Nothing on the program was particularly heavy or exacting, unless we except the Beethoven number, and yet everything was done and finished to a great nicety and exactness. It is far harder to render such numbers as "Where'er You Walk" or "Jamie, Come Home" in a truly artistic manner, than to plunge into some tremendous concerted piece or some rollicking sailor-song.

Mr. John B. Miller, tenor, illustrated this same feature of which we have spoken, for his rendition of Coleridge-Taylor's "Onaway, Awake Beloved," might be characterized as one of tender power, the upper registers of his voice being particularly pleasing and at times magnificent in both power and tone. However, to our mind, the piece de resistance of the evening was the song of "Life's Fulfillment," the music of which is from the pen of Helen M. Gilmore, the accompanist of the evening. The whole cycle is a composition of great beauty and merit, and was rendered with true artistic feeling. The opening unaccompanied quartet, and "Lullaby" (Miss Harrison), together with several concerted numbers, especially the finale, were wonderfully fine and beautifully interpreted. However, to our mind, one of the very best things in the whole work, aside from the work itself, was Miss Gilmore's faultless accompaniment of her own composition, which she evidently loves and which clearly reveals her true musician's soul. It would be hard indeed to find music better wedded to words or interpreted into emotion than in the "Vision of Love"—mist, wind, sky, sea, birds, wistful gaze, a voice calling—these rapidly pass before the hearer in a truly brilliant procession of sounds, and yet all within the compass of less than two minutes of time. Then, again, in the finale, one voice, two voices, a trio, a quartet, a tender parting between lovers, a vanquished retreat by the Evil Spirit, a mother's joyful prayer of thanksgiving, these, and all of them, distinguishable and yet most cleverly interlarded, produced a truly great conclusion. Mrs. Gilmore is to be highly complimented for her worthy contribution to musical literature in this work. The audience thoroughly enjoyed the evening's program, as was shown by its hearty applause and recalls. It may be said, however, that applause is out of place between each number of a song cycle, but should be saved until the end. The following comprised the program:

## LAKE MILLS ELEVEN COMING SATURDAY

Another High Football Game Here Made Possible by Cancellation of Harvard Date.

Though it was thought the Brodhead game would be the last interscholastic gridiron contest in Janesville this season, arrangements have been made for another this Saturday. The Lake Mills and Janesville high school teams will line up against each other at Athletic Park at half past two in the afternoon. On the following Saturday, the local eleven will go to Fort Atkinson to play and it is altogether likely that on Thanksgiving day they will meet the alumni. The alumni game will be particularly interesting as it will be a contest of a team trained and experienced under the new rules against the stars of the old game, practically unfamiliar with the reformed play.

## SPLIT THE BONDS OF THE COMPANIES

Milwaukee Telephone Fight Developed into a Combination at the Last.

Don Farnsworth who with Frank L. Bills, was one of the leaders in the fight for an independent telephone franchise in Milwaukee arrived from the Cream City last evening. His story of the result of the passing of the franchise to the Milwaukee Independent company is in line with the accounts that have appeared in the newspapers. It appears that the two companies, the one Mr. Farnsworth and Mr. Bills represented and the one in which Richard Valentine is a director, consolidated on the franchise proposition and that Farnsworth and Bills got the underwriting of half the bonds and also had the clause inserted that the automatic telephone be used. While not a direct victory for Farnsworth and Bills they secured a good share of the glory in having their style of phone adopted at last.

## SELF INTEREST

Our bank is not only safe but it is kept safe by the careful vigilance of the active management.

Most banks have good men as officers or directors but it frequently happens that the very men on whom the public depends for safe management do not hold enough stock to have a vital personal interest in the affairs of the bank.

There is no interest like self-interest and one of the greatest safeguards that can be thrown around a bank and that which is commonly overlooked is the personal acquisition of large holdings of the bank's stock by the individual officers and directors. Our officers and directors own two-thirds of the stock in this bank.

# OVER CONFIDENCE A FAULT OF ATHLETES

Football Players Are Becoming Too Chastity After Victory.

Madison, Wis., Nov. 14.—Coach Hutchins for the first time this season is fighting the over-confidence malady in the football quarters of the University of Wisconsin. The men, calculating from the victory won by Wisconsin over Illinois, and the mediocre showing made by the Purdue eleven, the thought of a reverse in the Wisconsin-Purdue game here Saturday are leading during the final week of the training season. The coach takes account of the fact that Wisconsin showed everything it had in the football line when Illinois was played, and Purdue was well represented in the grandstand, so that the best possible defense will be made up for the badgers. "Some new things are being attempted this week, but they are hardly more than variations of the plays used against Iowa and Illinois. The same shift to the end of the line will be employed, but will be varied with fakes and quarterback kicks and runs so as to keep Purdue from bunching the play. Aside from the injured ankle and foot of Halfback Clark, Wisconsin came out of the Illinois game in fair physical condition; but the men are inordinately lazy this week and respond only to differently to the urging of the coaches to work hard. Much practicing is being done by Springer and Messmer at place kicking, as Messmer is far more accurate in this than at drop kicking. His drop kicks are exceedingly unreliable as he seems to get nervous in competition. It has been decided to try to make the largest score possible against Purdue. The plan of the Illinois game, agreed upon in advance by the coaches, was to kick the ball whenever it was in Wisconsin's possession in badger territory, so as to wear out the opponents' ends, and this plan worked well, although it gave the critics the impression that Wisconsin was on the defensive and out-played during the first half of the game. Against Purdue the plan is to try to advance the ball by rushing and not by kicking until necessary, when in danger of losing the ball on downs. Coach Hutchins says he wants a big score to hang up as the result of the final game of the season.

# BLAME FOR WRECK HARD TO LOCATE

CORONER TO QUESTION CREW OF FIRST TRAIN.

DEAD LIST INCOMPLETE  
Indiana Official Has Difficulty in Securing Names of Victims, and It Will Be Several Days Before Verdict Is Given.  
Laporte, Ind., Nov. 14.—Coroner Carson has received no complete list of the dead and missing in the wreck on the Baltimore & Ohio railroad Monday.  
The list he is compiling contains 30 names, and it is believed nearly 20 are yet to be obtained. It will be several days before the coroner can return a verdict.  
The coroner believes the crew of the first section of the train can give some information as to the signals displayed, and has served notice on the railroad company, asking that J. C. Porter of Paris, Ind., conductor of the train, and Engineer Frank Gairower be summoned to appear before him. The freight crew insists that the first section carried no lights, but the train sheet of the operator at Summit indicates that green lights were displayed.  
The work of clearing away the debris is proceeding, but nothing further than a mass of twisted iron with piles of bones is revealed. As the charred bodies are taken from the wreck they are labeled and sent to the undertakers. All the bodies except that of Fireman Cullers will be buried at Chesterton.  
A number of gold coins, pots, tin cups and cooking utensils have been recovered.  
Dead May Number Seventy.  
Reports that more than 50 persons—the number given out by the railroad officials as the dead—had been killed, received some confirmation when it was learned that some of the babies and smallest children on the train were not named in the records kept by the officials. All children under six years traveled without transportation. It is stated that 20 children were on the train and not listed. Granting this, the list of missing will reach 70—probably dead.  
Fixing Blame of Wreck.  
Blame for the wreck, Dr. Carson said, might reach as high as the train dispatcher at Garrett, Ind. F. W. Barrett, who will be sent for and brought before the coroner as soon as he has been able to complete a list of the dead. If the train dispatcher clears himself the blame may be placed either on the crew of the freight train or on the crew of the first immigration train.  
Coroner Carson will conduct the inquiry personally. Under the laws of Indiana, the coroner is given the right to decide who shall be held accountable for a wreck. It will be necessary for Mr. Carson to impanel a jury to hear the evidence in this case.  
Engineer Renaman declared he had no orders in regard to the freight train, though he knew it was in the vicinity.  
Officials of the Baltimore & Ohio railroad place the blame for the disaster on their employees, saying the wreck was caused by a clear violation of orders.  
Condition of Two Serious.  
Of the 54 victims of the wreck who were taken to Mercy hospital all are reported as doing well with the exception of Mrs. Yoda Lukavitch, an Austrian, and W. Waldowicz.  
Mrs. Lukavitch was out and bruised, but the seriousness of her condition arises from the fact that pneumonia has set in as a result of the exposure. Waldowicz is suffering with a fractured skull. It is feared that neither will recover.

# OLD SORES FED AND KEPT OPEN BY IMPURE BLOOD

A great many people have an idea that old sores exist merely because of a diseased condition of the flesh where the ulcer is located. They patiently apply salves, powders, plasters and other external applications, but in spite of all such treatment the place refuses to heal. When a sore or ulcer does not heal readily the blood is at fault; this vital fluid is filled with impurities and poisons which are constantly being discharged into the place, feeding it with noxious matter, which makes it impossible for the sore to heal. Old sores may be the result of an inherited blood taint, or the effects of a long spell of sickness, or again the circulation may be contaminated with the collections of refuse matter which the different members have failed to expel through the channels of nature. Whatever the cause the blood becomes steeped in poison and a cut, bruise, scratch or other wound often develops into a sore, fed and kept up by these impurities, causing it to eat deeper into the surrounding tissue, inflaming, festering and causing pain. External applications can only keep the sore clean, they cannot cure it. The trouble, driving out the impurities and poisons and purifying and building up the entire circulation. When S. S. S. has removed the cause the blood becomes rich and healthy, the sore begins to heal, new flesh is formed, the place scabs over and is soon permanently healed. ## LABEL FOR THE FEDERATION TO ENFORCE 8-HOUR LAW

### DELEGATES TO REPORT TO NEXT CONVENTION.

Printers, Cigar-makers and Hatters Oppose Adoption of Universal Design by Central Body.

Minneapolis, Minn., Nov. 14.—The second day's session of the twenty-sixth annual convention of the American Federation of Labor in this city was full of interest, the most important action being that of delegates empowered to act regarding the adoption of a universal label design, referring the matter to the convention of 1907. This action, however, was not taken until after a lively discussion.

The cigar-makers, printers and hatters, led the opposition in regard to adopting a general label, claiming they have spent much money in advertising their respective labels and are deriving much benefit as a result, which would be lost were the federation to adopt a new general label.

President Gompers' plan of creating a political power out of combined union strength was endorsed by the convention when it approved the report of First Vice President James Duncan, in which he sanctioned the policy of Mr. Gompers. Mr. Duncan's report showed that the federation's campaign fund amounted to \$3,556.89.

The labor press is well represented at the present convention and while the convention is in session an effort will be made to form a National Labor Press association. There are about 300 publications devoted to labor in the United States and many of them are already represented here or will be by next week.

Bellefonte, Ill., Nov. 14.—Grieving over the sudden death of her brother, Miss Petronella Romelster, daughter of P. M. Romelster, a prominent merchant here, leaped from the third story window of her home Tuesday, fracturing her skull and arm. The attending physician believes she cannot live.

Her brother Roland, 17 years of age, died suddenly Sunday from paralysis of the heart. Miss Romelster, who has been attending school at Champaign, Ill., and is at home on a vacation, was inconsolable because of her brother's death. Tuesday she stood looking at the bier and weeping. Suddenly she ran upstairs, leaped from the window and was picked up unconscious.

### DEVIL'S PARTNER IS INSANE

Associate of Kansas and Illinois Financier is a Mental Wreck.

Leavenworth, Kan., Nov. 14.—W. E. Thomas, interested with the late C. J. Devlin, of Topeka, in coal mines and who attempted to commit suicide here shortly after the Devlin failure, was adjudged insane in the probate court of Leavenworth county Tuesday by a jury. There was no oral testimony, all being given in the form of depositions of physicians and nurses at a sanitarium in St. Louis, where Thomas has been confined since last December. According to the testimony, Thomas suffers hallucinations and is said also to have suicidal tendencies.

Thomas lost \$550,000 by the Devlin failure, and has since been of unsound mind. C. J. Willard, postmaster here, has been appointed guardian to manage his estate.

### PROSECUTION FOR VIOLATIONS ON FEDERAL WORK PLANNED.

Letter Sent Out by Moody as Result of Protests by American Federation of Labor.

Washington, Nov. 14.—Attorney General Moody Tuesday issued a circular letter of instructions to United States attorneys regarding prosecution of violations of the eight-hour law in which he says the government is determined upon a strict enforcement of this statute as relating to public works of the United States. All United States attorneys are directed to investigate all complaints which may come to them from any source of violation of the law and upon their own initiative to make investigation if there appears any reasonable ground for suspecting a violation and where sufficient evidence can be secured it must be submitted to a grand jury with a view to securing an indictment.

Mr. O. F. Carlton, a lawyer of Haverhill, Mass., has been appointed by the attorney general to have special charge of these cases in the department of justice. It is stated that, while up to two or three months ago comparatively few cases of alleged violations of the eight-hour law were brought to the attention of the department, during the last ten weeks as many as 300 alleged violations have been reported. Mr. Carlton will act in conjunction with Commissioner Neill of the bureau of labor who has furnished much of the evidence upon which the department is now acting.

"This order is the outgrowth of complaints made by the American Federation of Labor last summer of violations of this law. Previous to that time only one complaint had come to the notice of the president. An investigation by order of the president by Labor Commissioner Neill has already resulted in several indictments and within the last two months more than 300 complaints have been filed. Several of these are in Illinois and investigations are now being made upon them by the local district attorneys. Imprisonment of six months, or a fine of \$1,000 or both are the penalties for violation of the law.

## Cure For The Blues

ONE MEDICINE THAT HAS NEVER FAILED

Health Fully Restored and the Joy of Life Regained.

When a cheerful, brave, light-hearted woman is suddenly plunged into that perfection of misery, the blues, it is a sad picture. It is usually this way. She has been feeling "out of sorts."

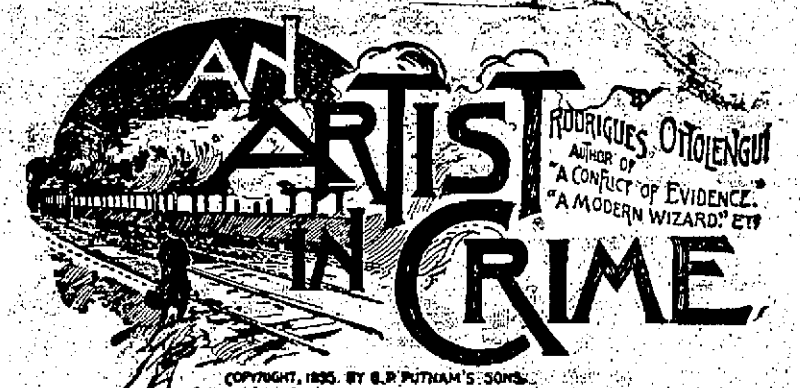

Mrs. Rosa Adams

for some time, head has ached and back also; has slept poorly, been quite nervous, and nearly fainting once or twice; head dizzy, and heart beats very fast; then that bearing-down feeling, and during her periods she is exceedingly despondent. "Nothing pleases her." Her doctor says: "Cheer up, you have dyspepsia; you will be all right soon."

But she doesn't get "all right," and hope vanishes; then come the brooding, morbid, melancholy, everlasting blues.

Don't wait until your sufferings have driven you to despair, with your nerves all shattered and your courage gone, but take Lydia E. Pinkham's Vegetable Compound. See what it did for Mrs. Rosa Adams, of 819 13th Street, Louisville, Ky., niece of the late General Roger Hanson, C.S.A. She writes: "I cannot tell you with pen and ink what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered with female troubles, extreme nervousness, the blues, nervousness and that all-gone feeling. I was advised to try Lydia E. Pinkham's Vegetable Compound, and it not only cured my female derangement, but it has restored me to perfect health and strength. The buoyancy of my younger days has returned, and I do not suffer any longer with despondency, as I did before. Consider Lydia E. Pinkham's Vegetable Compound a boon to sick and suffering women."

"All this flashed through Mr. Barnes' brain in a half moment, and by the time the thief before him had secured the ruby and was standing erect he had decided upon his course of action. This was to seize the man at once and proclaim him a thief. Of course Mr. Mitchell would be able to explain his act, but at the same time he would have lost his wager."

"The man in front turned to pass on, and Mr. Barnes darted forward to seize him, when, to his astonishment, he was himself held in a vise by the man behind him. He struggled to free himself, but, taken by surprise, he discovered that he was powerless. What angered him more was that the thief was fast disappearing in the gloom. Determined not to be outwitted, he shouted: "Turn on the lights! A robbery has been committed!"

"Instantly all was confusion. People crowded forward, and Mr. Barnes felt himself hurled violently toward the advancing throng. Topping against some one, both fell to the ground; and several others tumbled over them. Pandemonium reigned supreme, yet it was some time before any one thought of turning up the lights. Mr. Van Rawlston, understanding the situation better than any other, was the first to recover his presence of mind, and himself turned on the electricity. The sudden rush of light at first only made things worse, for it blinded everybody. Thus, to the detective's chagrin, several valuable minutes were lost before he could extricate himself from the pile of people who had tumbled over him and find a chance to say aloud:

"Miss Remsen has been robbed. Let no one leave the house. Masks off!" Mr. Van Rawlston rushed to the door to see that no one departed, and people crowded around Miss Remsen to coincide with her upon her loss. Mr. Barnes searched for Ali Baba and was amazed when he found "him" to discover that it was not Mr. Thaurat.

"Who are you?" he asked roughly. "My name is Adrian Fisher," was the reply. This astonished the detective, but it pleased him, too, for it seemed to confirm the suspicion that this man was an accomplice. He decided quickly to say no more to him at that time, and hastened toward Miss Remsen to observe her behavior. If she knew anything in advance, she certainly was acting admirably, for she had grown excited and was talking vehemently to those about her, declaring against the disgraceful management of the case, which had enabled a thief to enter the room."

While Mr. Barnes was thinking what to do he saw Mr. Van Rawlston approaching him, accompanied by Mr. Thaurat, who was now in evening dress. "Mr. Barnes, how was this thing done? Why did you not prevent it?" "I tried to do so, but could not. You must understand, Mr. Van Rawlston, that I am not omniscient. I suspected that this robbery would occur, but could not know how it would be accomplished. Nevertheless I saw the act."

"Then why did you not seize the thief?" "I attempted to do so, and was thrown down from behind by his accomplice."

"Can you identify the person by his dress?" "That is unfortunately impossible. All that I know is that he was one of the Forty Thieves and evidently played his part well."

"This is Mr. Barnes," said Mr. Thaurat, inquiringly, continuing at once: "Yes, of course it is. We have not twice, I think. You say your thief was dressed as one of the Forty Thieves. That interests me, for I wore one of those dresses. Why not ask all who did to allow themselves to be searched?"

"I will not hear of such an indignity to my guests," at once ejaculated Mr. Van Rawlston. "Search people in my own house! No, sir. I will willingly pay for the lost gem rather than do so."

"You are quite right," said the detective, keenly eyeing Mr. Thaurat. "I am sure that it would be useless."

"As you please," said Mr. Thaurat, and with a sardonic smile he bowed and joined the group around Miss Remsen. Mr. Barnes told Mr. Van Rawlston that it would be useless for him to remain longer and that he would depart. He did not do so, however, until he had assured himself that Mr. Mitchell was not in the house. "He went to the door and found that the boy who had been told to guard it had been absent looking at the tableaux when the confusion occurred, so that he did not know whether any one had left the house or not. He therefore departed in disgust."

"That fellow Mitchell," thought he as he walked rapidly down the avenue, "that fellow is an artist. To think of the audacity of waiting till the very moment when his wager would be lost, and then committing the robbery in such a manner that 100 people will be able to testify that it occurred within the limited period. Meanwhile there is an excellent alibi for him. Sick in a hotel in Philadelphia! Bah! Isn't there one man that I can depend upon?"

At Forty-second street he took the elevated road, and in 20 minutes he was at his office. Here he found the spy who had followed Mr. Mitchell to Philadelphia. "Well," said he angrily, "what are you doing here?"

"I am sure that Mitchell has returned to New York. I came on hoping to catch up with him, and at least to warn you."

"Your warning comes too late. The mischief is done. Didn't you have brains enough to telegraph?"

"I did just before I started." The dispatch was on Mr. Barnes' desk when it had arrived after he had

## MARY AGNES PERRY

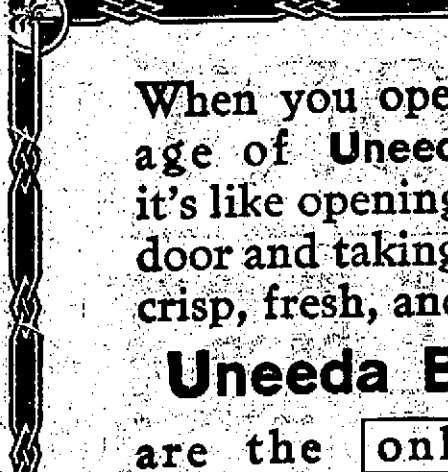

DEAR MR. BARNES:—I am writing you this letter because I am getting pretty well acquainted with one another. I have just read the New York newspaper and am startled to see that Miss Remsen was deliberately robbed of that valuable ruby which I recently gave her. You will remember that I showed you the gem the very day that I took it to be set. I am very much disturbed about this affair, especially as I am unable, through sickness, to return to New York, and my physician warns me that it will be several weeks before I can leave my room. Will you do me a great favor? Forget that I ever disparaged the detective force of which you are undoubtedly a brilliant member and take this case in hand. I will give you \$1,000 if you will recover the jewel, which is only a small reward, considering its value. I send you a check for \$200, which you may use for expenses, and if more is needed, let me know. I wish you could run over to Philadelphia to see me. A conversation with you would be a great satisfaction to me. Will you please write me soon?

ROSEMARY MARY PERRY.

Mr. Barnes read this no less than three times, and then aloud, though there was no one to hear him. "Well!" That was all, but the tone was rich in suggestiveness. What he thought, but did not put into words, was: "That man has the coolest audacity I ever met. Here he actually offers me \$1,000 to recover that ruby, when he knows that I was right by his side at the time of the theft. Is he so egotistic that he dares to say he is so sure that he cannot be convicted? I know that he was not in Philadelphia anyway, as my man found this room empty. His alibi is broken, at all events, clever as he thinks himself. Will I go to Philadelphia to see him? Well, I should think so!" A conversation with him will be as satisfactory to me as it is possibly can be to him. But first I must obey the call from Miss Remsen. There may be much to learn there.

It was nearly an hour before Mr. Barnes' duties in connection with other cases made him at liberty. He went straight to Miss Remsen's and was shown into her presence.
